(a) train loss
(b) preconditioned sharpness $\lambda_1(P_t^{-1}H_t)$
(c) gradient norm squared $|\nabla f(x_t)|^2$
(d) preconditioner norm squared $|P_t|_F^2$
(e) sharpness $\lambda_1(H_t)$
learning rate $\eta =$ 5e-5
learning rate $\eta =$ 2e-4
iteration
