Data X_A
Horizontal FL
Data X_B
Label Y_B
Data X_A
Federated transfer learning
Data X_B
Label Y_B
Distributed data protection aggregation
Differential privacy
Homomorphic encryption
Random forest
K-means
AdaBoost
Data X_A
Vertical FL
Data X_B
Label Y_B
Federation model
Block 1
Block 2
Global aggregation and update model
Block N
FL computing environment
Local model upload
Local model upload
On-board data
Data and model isolation
Sensor data
Data sample alignment
Intelligient terminal data
Local model tranining
Local model tranining
