

# ***solid* group**

SOLID\_1:

irregular grain

roundish monomer  
(e.g., in computer models)

SOLID\_2: dense aggregate of grains

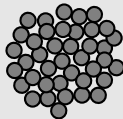

# ***fluffy* group**

FLUFFY\_1: fractal, dendritic agglomerate  
(with  $m \propto r^{D_f}$  and  $D_f$  typically 1.5 .. 2.5)

# ***porous* group**

POROUS\_1: porous agglomerate

POROUS\_2: cluster of agglomerates  
(hierarchical)
