

**LIME:** nice brown “ grolsch ” like bottle ( good for re-use ) . pours a dark yellow color with a lot of head in the beginning which laces well . very fizzy . smells like fruit , maybe some apple and blueberry . no mouthfeel whatsoever . besides being wet and a small initial alcohol , i could n’t feel anything . tastes of fruit and not much alcohol , but i can start to feel a slight warming as i finish off the bottle . better than most american lagers , but very smooth . i think i would normally drink this too fast .
