

Give me three days, I will make sure your car look brand new.

The diagram shows a central red node connected to several other nodes. The nodes are represented by colored dots (red, orange, blue, light blue, grey) and are connected by black lines. Each node has a speech bubble pointing to it, containing a statement. The entire network is enclosed within a large black circle.

Yea, I should be able to fix it for you.

Yes, I can.

The food in the restaurant is awesome.

Yes.

That is great.

They have very juicy and tender steak, and their service is top-tier.
