

# Industrial Computer Engineering (ICE) lab

Strategic skills  
Industrial robots  
Cyber-physical systems  
Data analytics  
Digital manufacturing

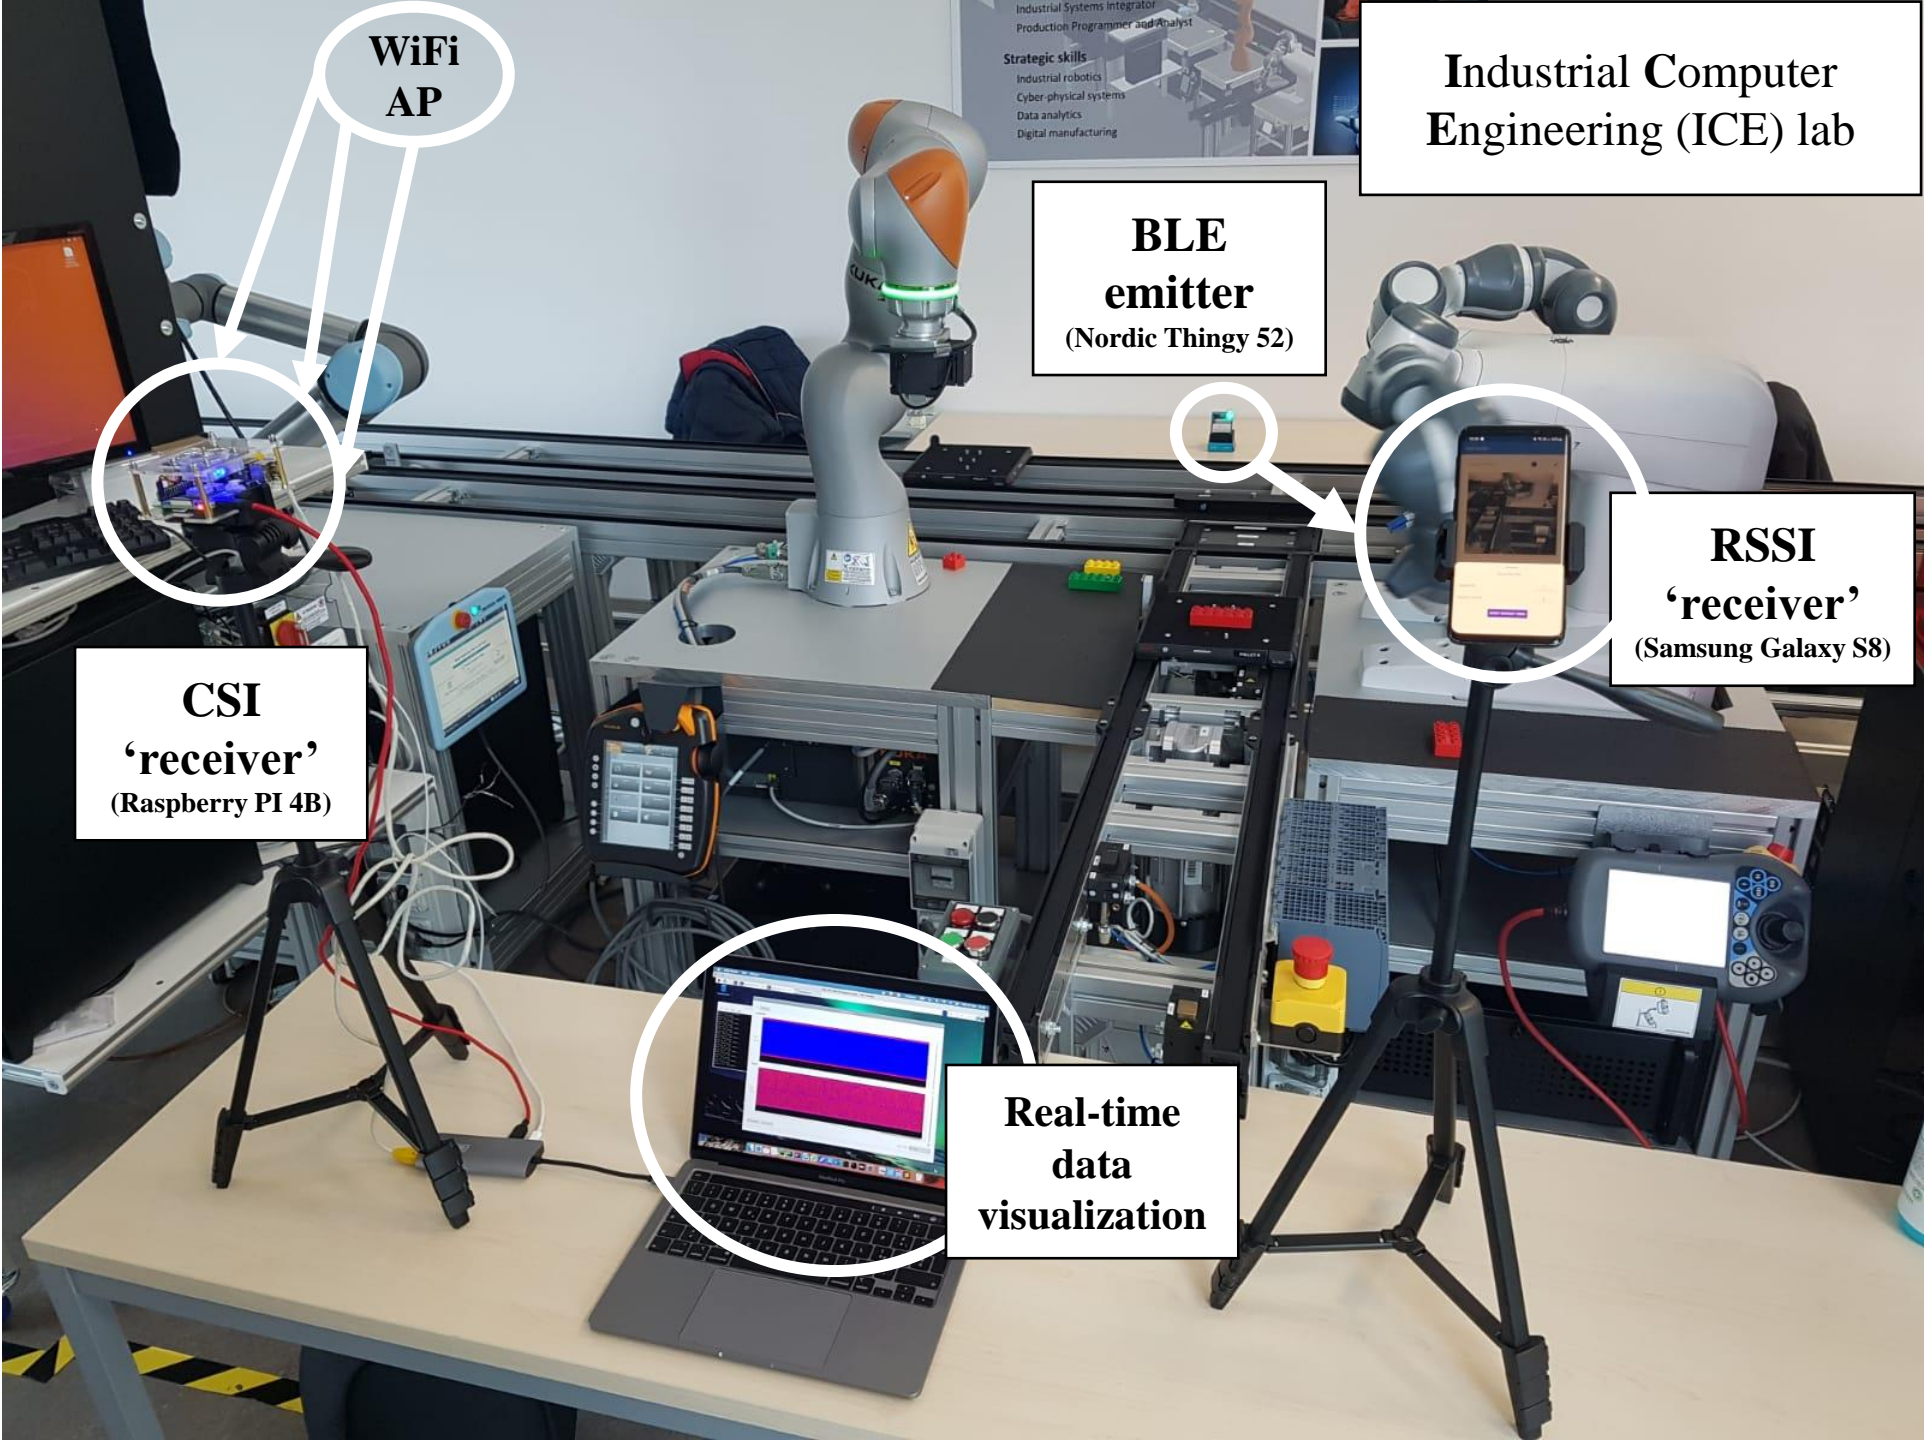

**BLE emitter**  
(Nordic Thingy 52)

**RSSI 'receiver'**  
(Samsung Galaxy S8)

**CSI 'receiver'**  
(Raspberry PI 4B)

**Real-time data visualization**

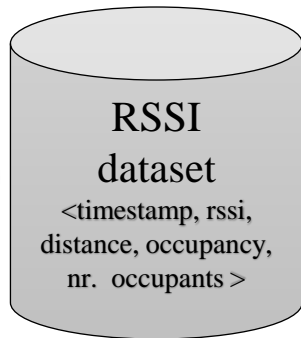

**WiFi AP**

## Offline phase

**BLE receiver**  
(Smartphone, SBC)

**BLE emitters**  
(SBC, Smartphones,  
Dedicated BLE)

**Pattern  
recognition  
model training**

Regression

Classification

## Online phase

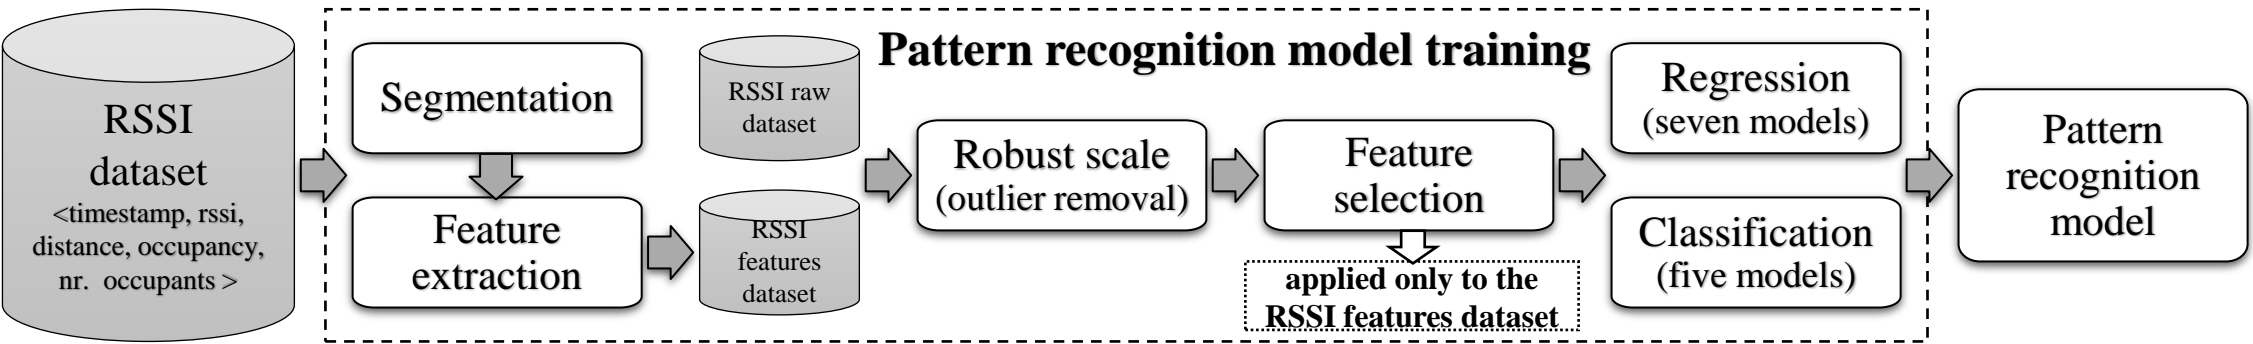

**Outcome  
evaluation**

<sensitivity, specificity,  
precision, accuracy ,  
RMSA, MAE>

**Pattern  
recognition  
model**

RSSI raw and features dataset

Hold-out

Training (75%)

Testing (25%)

k-Fold

Pattern  
recognition  
model training

k=3, 5, and 10

Pattern  
recognition  
model

Robust scale  
(outlier removal)

- Sensitivity
- Specificity
- Precision

- Accuracy
- MAE
- RMSE
