

A photograph of a person's hand and forearm, overlaid with a skeletal model. The model consists of colored lines representing bones and small circles representing joints. The lines are color-coded: yellow for the forearm, green for the wrist, blue for the hand, and pink for the fingers. The circles are also color-coded to match the lines they represent. The hand is positioned as if holding a handle, with the fingers slightly curled.

A photograph of a person's hand and forearm, overlaid with a digital skeletal model. The model consists of colored lines representing bones and small black circles representing joints. The thumb is yellow, the index finger is green, the middle finger is blue, the ring finger is pink, and the pinky is purple. The wrist and forearm are also visible, with the forearm being grey. The background is dark and out of focus.
