w

A heatmap showing the MNVI metric as a function of parameters w and α . The horizontal axis represents w , ranging from -0.2 to 0.2, with major ticks at -0.2, 0.0, and 0.2. The vertical axis represents α , ranging from 0.00 to 0.05, with major ticks at 0.00 and 0.05. The color scale indicates the MNVI value, with a color bar at the top labeled 'MNVI'. The plot shows a vertical band of low MNVI values (dark blue) centered around $w = 0.0$, which broadens as α increases. The regions of high MNVI values (yellow and orange) are located at the extremes of w and for higher values of α .
