

# Explanation on author photos

TPAMISI-2020-05-0657

Dear editors,

Our paper "Winning solutions and post-challenge analyses of the ChaLearn AutoDL challenge 2019" is the result of many hard-working organizers and participating teams of the AutoDL challenges and we would never make it without their help. This is also why the number of authors of our paper is larger than that of usual papers. As including a photo for every author (there are 25 of them) inevitably takes very large space, the authors agreed to not include any author photos. It would be a pity for us to not let the world visually know us but we especially hope that this still conforms to the publication policy.

We are very grateful for your understanding.

Best regards,

The authors of "Winning solutions and post-challenge analyses of the ChaLearn AutoDL challenge 2019"
