

(a) The accuracy of models trained on different data

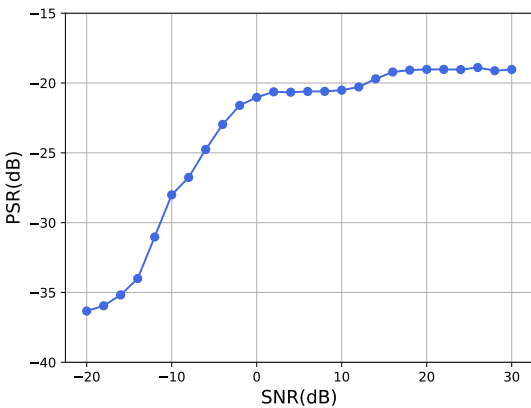

(b) The confusion matrix of the SOTA model for original data under SNR>10

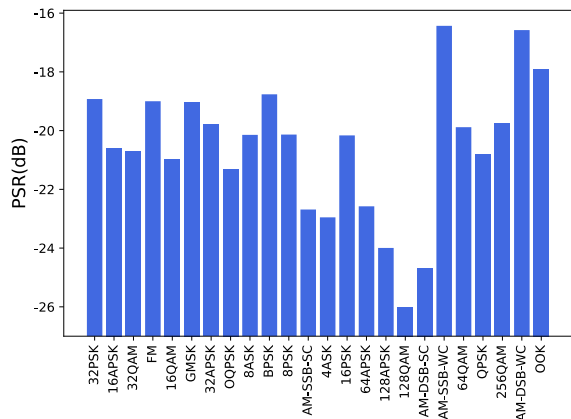

(c) The accuracy of the SOTA Model for the original data and LIW

(d) The confusion matrix of the SOTA model for LIW under SNR>10

(e) The PSR of LIW with different SNR

(f) The PSR of LIW with different labels (SNR>10)
