

The diagram illustrates a timeline with a horizontal axis labeled 'Time' at the right end. An orange rectangle labeled 'Annotated Window' is positioned above the timeline, starting from the origin and extending to the right. Below the timeline, a sequence of blue rectangular blocks is shown. The first block is labeled '1', followed by '2', '3', an ellipsis '...', 'n-2', 'n-1', and 'n'. A bracket below these blocks is labeled 'Detection window'. A vertical dashed line is drawn at the start of the first blue block. A horizontal double-headed arrow below the timeline, spanning from the origin to the vertical dashed line, is labeled '+ve Offset'.
