

# AMA PROMPTING

## Input Example

Is the following claim True or False given the context?

**Context:** John and his friends went to the theater and saw Jurassic Park.  
**Claim:** John went to the park.  
**Answer:**

- Model Input
- Prompt Chain
- Model Output

1 Run a collection of prompt()-chains where the LLM will generate inputs to question and answer

2 Combine the noisy answers using weak supervision
