

Multi-Objective Recommender Systems

Quality Objectives

Individual level, e.g.,

- Multi-criteria optimization
- Calibration

Aggregate level, e.g.,

- Global diversity, serendipity, novelty, ...

Multistakeholder Objectives

Two stakeholders, e.g.,

- Consumer and Provider (relevance vs. profit)

More stakeholders, e.g.,

- Consumer and Platform and Provider (relevance vs. commission profit vs. revenue)

Time Horizon Objectives

Long-term, e.g.,

- Customer retention
- Satisfaction
- ...

Short-term, e.g.,

- Click-through rates
- Profitability

User Experience Objectives

Trade-offs, e.g.,

- Information completeness vs. Information Overload
- Transparency vs. Cognitive Effort
- Cognitive Effort vs. User Control vs. Usability
- Flexibility vs. Efficiency

System-related Objectives

Trade-offs, e.g.,

- Accuracy vs. scalability
