Scenario 1: Alex says to Sam: "My doctor diagnosed me with a serious disease..."

Q: What is Alex communicating to Sam? Given that Sam wants to act opposite to what is socially correct, describe Sam's facial expressions in visual detail.

A: Alex is telling Sam that they have been diagnosed with a serious disease. The socially correct expression is to look sympathetic. Given that Sam wants to act opposite to what is socially correct, they would likely look amused, with a large grin.

Scenario 2: Alex says to Sam: "I think you are the coolest person ever..."

Q: What is Alex communicating to Sam? Given that Sam wants to act opposite to what is socially correct, describe Sam's facial expressions in visual detail.

A: Alex is telling Sam that they think Sam is a great person. The socially correct expression is for Sam to look happy and appreciative, with their lips turned up in a smile. Given that Sam wants to act opposite to what is socially correct, they would likely look skeptical, bored, or unphased, with an overall neutral and emotionless expression.

Scenario 3: Alex says to Sam: "Yeah, to be honest, I'm really scared if you do move up to the Bay or I move away or something and we have to break up or however it ends up working..."

Q: What is Alex communicating to Sam? Given that Sam wants to break up with Alex, describe Sam's facial expressions in visual detail.

A: Alex is telling Sam that they are worried about a potential break-up. The socially correct expression is for Sam to look sad and concerned. Given that Sam wants to break up with Alex, they would likely look relieved, happy, or excited at the prospect. Their lips might turn up in a smile, and their eyes might widen in excitement.
