

**Spectral 3D
Computer
Vision Tasks**

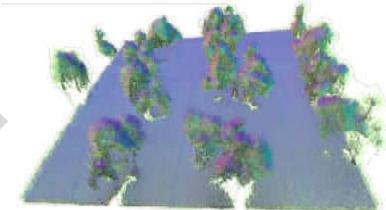

**(a). Multi-Source Data
Integration**

Multispectral Image

RGB Point Cloud

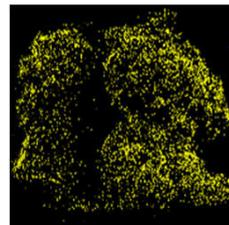

Multispectral Point Cloud

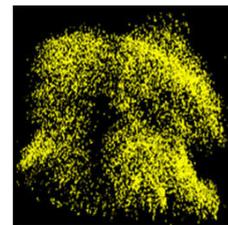

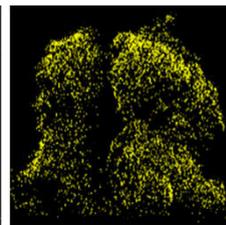

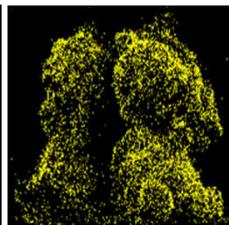

(b). Structure from Spectra

Dolls Image at 700nm

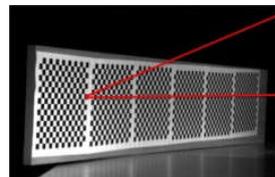

3D Models Generated by Different Hyperspectral Bands

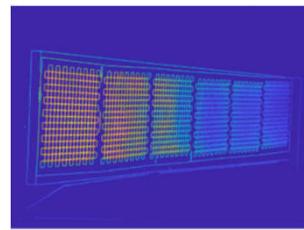

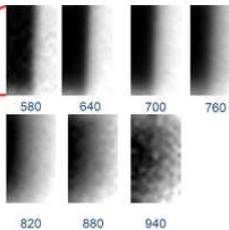

Hyperspectral Point Cloud

(c). Depth Estimation

Chromatic Aberration and Varying Defocus
Blur Hyperspectral Data

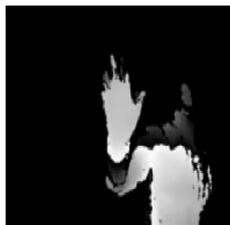

Sparse Depth Map

Sparse Depth Map

**(d). 3D Pose and Motion
Analysis**

Hand Pose Estimation Based on Depth and Infrared Inputs
