

Section I: Introduction

Blockchain

AI

6G

Motivations

Contributions

Section II: Background of Blockchain and AI

An Overview of Blockchain

An Overview of AI

Blockchain for Wireless Communications

AI for Wireless Communications

Integration of Blockchain and AI

Blockchain for AI

AI for Blockchain

Motivations of Integration of Blockchain and AI for 6G

Section III: Integration of Blockchain and AI for Wireless Communications

6G Secure Services

6G IoT Smart Applications

Spectrum Management

Smart Healthcare

Content Caching

Smart Transportation

Computation Allocation

Smart Grid

Security and Privacy

UAV

Analysis of Operating Frequencies, Visions, and Requirements from the 6G Perspective

Section IV: Open Issues, Research Challenges, and Future Work

Towards Blockchain

Towards AI

Towards Blockchain- and AI-assisted Wireless Communications

Future Work

Section V: Conclusion
