

Step1. Scoring edges

$$\hat{s}_{i,j}^e \rightarrow \text{FFN} \rightarrow a_{i,j}$$

Eq. (5)

Step2. Choosing highest-scored (first-order) neighbors of target objects

➤ Target object-1 (O_1) perspective

➤ Target object-2 (O_2) perspective

Step3. Assembling and pruning

➤ Assemble two perspectives

➤ Pruning lower edge in the cycle
