

Domain

the collection of all task intervals

t_2 - the collection of all task intervals observed until t_2

Task interval

First task

Second task
with new
vertex and edge

Third task
with
new edge

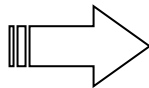

The collection of vertex and edge features obtained from all graphs in a task

interval Δt is denoted by $(\mathbf{x}, \phi)_{\Delta t}$

1st task

$(\mathbf{x}, \phi)_{\Delta t}$

1st and 2nd task

$(\mathbf{x}, \phi)_{t_1}$

1st, 2nd and 3rd task

$(\mathbf{x}, \phi)_{t_2}$
