Which NER tool are you interested in?

en-ner-bc5cdr-md

Which Question Generation tool are you interested in?

BART

Which Sentence Embedding method would you like to use?

SentenceBERT

Which Clustering Method would you like to use?

K-Means

How many clusters do you want to generate?

01220

In this view, you should first choose some documents from which you want to extract relevant information. Then in the left hand side panel, you should select what kind of named entities would be of potential interest to you, then the factoid question generation model, question embedding algorithm and clustering algorithm. Also use the slider to choose your desired number of clusters.

| Select | DocumentID | Content |
|-------------------------------------|------------|---|
| <input type="checkbox"/> | 1 | heparin-induced thrombocytopenia and thrombosis and other side effects of hepar |
| <input checked="" type="checkbox"/> | 101 | Upon nicotine pre-exposure, brain acetylcholinesterase increased, while monoamin |
| <input checked="" type="checkbox"/> | 201 | Caution should be used when EVISTA is coadministered with other highly protein-bo |
| <input type="checkbox"/> | 301 | Cyclooxygenase-1 (COX-1) inhibitors (flurbiprofen, ketoprofen and ketrolack) attenu |
| <input type="checkbox"/> | 401 | In addition, phenoxybenzamine showed little or no calcium-dependent binding to th |
| <input type="checkbox"/> | 501 | Salicylate competes with a number of drugs for protein binding sites, notably penici |
| <input type="checkbox"/> | 601 | Administration of low, but not high, doses of oral nicotine in DSS-treated mice result |
| <input type="checkbox"/> | 701 | dobutamine and exercise induced myocardial ischaemia . objective : to determine w |
| <input type="checkbox"/> | 801 | vasovagal syncope and severe bradycardia following intranasal dexmedetomidine fc |
| <input type="checkbox"/> | 901 | left ventricular dysfunction occurs in patients with coronary artery disease after botl |

Your selected Documents:

| | DocumentID | Content |
|---|------------|-----------|
| 1 | 101 | Upon nicc |
| 2 | 201 | Caution s |

=====

We ran the UnsupervisedIE pipeline on your selected documents using NER en-ner-bc5cdr-md and Question Generator as BART , embedded the questions using SentenceBERT and grouping them into 12 clusters using K-Means .You can now visit the Explorer View to see the generated clusters!
