

**Sequence Context:** "agent is at location (6,6,6). agent has pitch -0.3 and yaw -0.3. agent has property agent. agent has property self. jenna is at location (14,7,7). jenna has pitch -0.8 and yaw -1.4. jenna has property cow. jenna has property cow. jenna has property white. itsy is at location (0,7,13). itsy has pitch 1.4 and yaw -0.7. itsy has property pig. itsy has property white. itsy-bitsy is at location (11,7,5). itsy-bitsy has pitch 1.1 and yaw -1.4. itsy-bitsy has property pig. itsy-bitsy has property white. arrow is at location (9,7,8). arrow has pitch -0.3 and yaw -1.1. arrow has property rabbit. arrow has property mottled. speaker is at location (10,7,2). speaker has pitch 1.2 and yaw -2.0. inst\_seg is at location (10,3,11). inst\_seg has property triangle. inst\_seg is at location (1,4,9). inst\_seg has property hollow\_cube. inst\_seg is at location (4,5,4). inst\_seg has property hole. agent is at location (6,6,6). agent has pitch -0.3 and yaw -0.3. agent has property agent. agent has property self. jenna is at location (14,7,7). jenna has pitch -0.8 and yaw -1.4. jenna has property cow. jenna has property white. itsy is at location (1,7,13). itsy has pitch 1.4 and yaw -0.7. itsy has property pig. itsy has property white. itsy-bitsy is at location (12,7,3). itsy-bitsy has pitch 1.1 and yaw -1.4. itsy-bitsy has property pig. itsy-bitsy has property white. arrow is at location (10,7,8). arrow has pitch -0.3 and yaw -1.1. arrow has property rabbit. arrow has property mottled. speaker is at location (10,7,2). speaker has pitch 1.2 and yaw -2.0. inst\_seg is at location (10,3,11). inst\_seg has property triangle. inst\_seg is at location (1,4,9). inst\_seg has property hollow\_cube. inst\_seg is at location (4,5,4). inst\_seg has property hole"

**Query:** which object increased x the most?

**Answer:** itsy

**Sequence + GPT-2:** itsy-bitsy

**Structured + Transformer:** itsy
