

## Shot File #1

```
<name>file.bytes-per-checksum</name>
  <value>-1</value>
  <description>The number of bytes per checksum.
Must not be larger than file.stream-buffer-size</description>
```

.....

Question: Are there any mistakes in the above configuration file for Hadoop Common version 3.3.0? Respond in a json format similar to the following:

```
{
  "error": boolean, // true if there are errors, false if there are none
  "error_property": [], // List containing properties with errors
  "reason": [], // List containing explanations for each error
}
```

Answer:

```
{
  "error": true,
  "error_property": ["file.bytes-per-checksum"],
  "reason": ["The value of the property 'file.bytes-per-checksum' is out of
range. It should be greater than 0."]
}
```

.....

## Shot File #n

Configuration File:

Question:

Answer:

## Configuration File

```
<name>fs.s3.sleepTimeSeconds</name>
  <value>10s</value>
  <description>The number of seconds to sleep between each S3
retry.</description>
```

.....
