

Four prototypical states \mathcal{S}_k

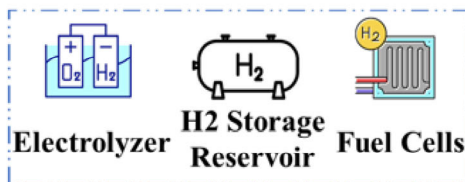

Higher
Electricity Price

A small amount of
PV Power Generation

Battery Energy
Storage System

Hydrogen Energy
Storage System

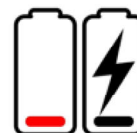

Typical discharging state for BES

Lower
Electricity Price

A large amount of
PV Power Generation

Battery Energy
Storage System

Hydrogen Energy
Storage System

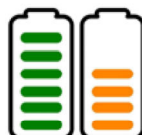

Typical charging state for BES

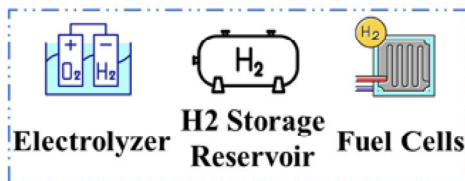

Lower
Electricity Price

A large amount of
PV Power Generation

Battery Energy
Storage System

Hydrogen Energy
Storage System

Typical charging state for HES

Higher
Electricity Price

A small amount of
PV Power Generation

Battery Energy
Storage System

Hydrogen Energy
Storage System

Typical discharging state for HES
