

None	1
Image 1	2
Image 2	3
Both	4

Please read all the instructions carefully before answering the questions

Consider a text **"A brown bear and a blue bird"** and the two images. In this example, note that image on the left is of higher quality than the one on the right, but **both** the images are well aligned with the text. So the right answer to pick is **"Both"**.

=====

Consider a text **"A stack of 3 cubes. A red cube is on the top, sitting on a red cube. The red cube is in the middle, sitting on a green cube. The green cube is on the bottom"**.

Given the two images, the image on the left aligns well with the text while the image on the right misses it. So the right answer should be "Image 1".

=====

Consider the text **"A herd of sheep chased by a border collie"** and two images. Both the images have a "small herd of sheep" but no "border collie". In this case, the correct answer is **"None"**. Note that even if an image is **not aligned with a small portion of the text**, it should **not** be picked as the right answer.

=====

Text: A purple cylinder and a red cube
