

Conditioning:

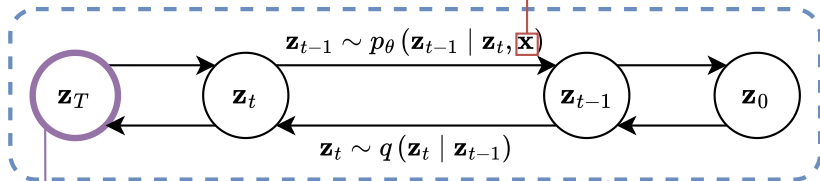

What information guides sampling?

- LR reference
- SR reference
- Feature reference
- Text-to-Image information

Guidance:

Improve conditioning influencing training

- Classifier guidance
- Classifier-free guidance

Corruption Space:

*What is the target of the forward diffusion? /
What is the start of the backward diffusion?*

- Gaussian noise
- Cold Diffusion
- l^2SB
- InDi

State Domain:

How are states represented?

- Pixel Space
- Latent Space
- Frequency Space
- Residual Space
