

Prompt : Interest Angle Generation

Roles: System User Assistant

Task description: You are a movie recommendation expert. Given a movie sequence a user has watched in a historical period, we would like you to summarize the user's interests when selecting movies to watch. Each interest category should include at least two movies from the historical sequence. The interest categories may include, but are not limited to: Movie Genres (such as action movies, comedy movies, etc.), Movie Themes (such as historical movies, war movies, etc.), Movie Production Features (such as animated movies, documentaries, etc.), Movie Directors, Movie Actors, Movie Nationalities, Movie Languages, Movie Eras, etc.

Input: User's historical viewing sequence: <Father of the Bride (1950)>, <Full Monty, The (1997)>, <2 Days in the Valley (1996)>, <Dick Tracy (1990)>, <Scary Movie (2000)>, <Hard-Boiled (Lashou shentan) (1992)>, <Man Who Would Be King, The (1975)>, <Raiders of the Lost Ark (1981)>, <Larger Than Life (1996)>, <Almost Famous (2000)>, <Godfather, The (1972)>, <Godfather: Part II, The (1974)>

The reasoning result is: Aspects of interest that users may consider when selecting movies include: Interest Angle 1: Movie genres: Interest category 1: Science fiction, Interest category 2: Action film, Interest category 3: Adventure film. Interest Angle 2: Movie director: Interest category 1: George Walton Lucas Jr, Interest category 2: Steven Allan Spielberg. Interest Angle 3: Movie actors: Interest category 1: Harrison Ford. Interest Angle 4: Movie nationalities: Interest category 1: United States. Interest Angle 5: Movie languages: Interest category 1: English.

Prompt : Construction of Multi-View Hypergraph

Roles: System User Assistant

Task description: You are a movie recommendation expert. Given a movie sequence a user has watched in a historical period, as well as the user's interest angles and interest category summarized by the analyst based on the user's historical sequence, organize the movies contained in each interest category in the historical watching sequence. If the interest category does not contain any movies, output "None".

Input: User's historical viewing sequence: <Father of the Bride (1950)> , <Full Monty, The (1997)>, <2 Days in the Valley (1996)>, <Dick Tracy (1990)>, <Scary Movie (2000)>, <Hard-Boiled (Lashou shentan) (1992)>, <Man Who Would Be King, The (1975)>, <Raiders of the Lost Ark (1981)>, <Larger Than Life (1996)>, <Almost Famous (2000)>, <Godfather, The (1972)>, <Godfather: Part II, The (1974)>

User's interest categories: Comedy, action movie, 1990s, 1970s, directed by Francis Ford Coppola, directed by Steven Spielberg, crime movie, adventure movie, actor Marlon Brando, actor Harrison Ford, American movie, British movie, documentary, animated movie.

The reasoning result is: The output of organizing the movies is as follows: Comedy: <Father of the Bride (1950)>, <Full Monty, The (1997)>
Action movie: <2 Days in the Valley (1996)>, <Hard-Boiled (Lashou shentan) (1992)>, <Raiders of the Lost Ark (1981)>
1990s: <Full Monty, The (1997)>, <2 Days in the Valley (1996)>, <Hard-Boiled (Lashou shentan) (1992)>, <Larger Than Life (1996)>, <Almost Famous (2000)>
1970s: <Man Who Would Be King, The (1975)>, <Godfather, The (1972)>, <Godfather: Part II, The (1974)> Directed by Francis Ford Coppola: <Godfather, The (1972)>, <Godfather: Part II, The (1974)>

Interactions Sequence

The form of Item in ML-1M: <The Godfather (1972)>

(LLM)

Interest Angle

Interest Angle 1: **Movie genre**: Interest category 1: **Comedy film**, Interest category 2: **Action film**

(LLM)

Hyperedge

Comedy: <Father of the Bride (1950)>, <Full Monty, The (1997)>

Multi-View Hypergraph
