... he separate Global Business Leader panels were launched in 2015 with two sessions. The positive response saw a third session added in 2016, and organisers will include a fourth panel discussion for 2017. With this year seeing ADIPEC expand to include downstream industries for the first time, an additional programme will include three Downstream Global Business Leader panels. # "ADIPEC is unique for its ability to attract such a broad group of industry seniors to an annual event, driven by the market power of the region's NOCs and their IOCs partners," said Ali Khalifa Al Shamsi, CEO, Al Yasat Petroleum Operations Co. Ltd and ADIPEC 2017 Chairman. "Nowhere else will industry professionals get such an insight into the strategic thinking guiding the industry forward, from individuals whose decisions are critical to the future of oil and gas businesses." # With planning for ADIPEC entering its final weeks, organisers have confirmed the involvement of 13 CEOs for the Global Business Leader panels and are in talks with many more across the g

... vance for coordinating with press schedules and allows too much time for schedules to adjust prior to the tour dates. It's a hard two weeks of pitching, but allows you to pitch at the most effective time, instead of spinning your wheels too far in advance. # Pitch in tiers. It isn't always easy to know what kind of response you'll get, so be sure to separate your press list into tiers, starting with top-tier and highly targeted outlets and working your way down. This formula also allows you to have a clean, open schedule for your most sought after meetings. No one wants to haggle with an outlet like the Huffington Post about timing! # Pick up the phone. Begin the relationship on a more personal level and pick up the phone to pitch for a press tour. It's often hard, if not impossible, to truly portray the coolness of some products or services over email. Phone pitching allows you to "get real" with the press and tell them why it would work for them and their audience. Plus, you are more likely to establish a connection over the phone

... healthcare business. And then on the positive side too, the other piece I would throw out is, as the economy moves to a digital-first, thinking about how we play in our semiconductor space, data centers, factory automation is another area of strength that has helped us and through COVID. # Got that. And then as a follow-up, when I looked at the guidance that you had given or the framework for the third quarter, and you came in pretty darn close to -- and actually above on revenues and above on margins. What might be the prospects for restoring guidance? I know you've given our framework for 4Q. But just if you -- in the position we are pretty darn close at this stage, when might guidance be restored? And when might you restore buybacks? I mean, you commented on disciplined capital allocation, but you had really good cash flow. # You paid down debt, when might buybacks be restored? Thanks. # Yeah Dean, maybe I'll take the first part of that and just talk about how we think about guidance. And as we went through Q3 and got halfway throu

... ties independently as well as in different projects with the government. These organizations have also implemented social accountability standard (ISO-26000). Thus employee at managerial or supervisory level is considered as a unit of analysis for this study. This study used survey based methodology and a questionnaire was developed after a comprehensive review of literature. CSR items are taken as independent variables and financial performance as dependent variable. Data was collected using questionnaire and distributed to the respondent, however, a formal permission was taken through HR department of each organization before conducting the survey. A stratified random sampling technique was used to reduce the common bias in the data. # Questionnaire for this study consists of two sections; first section was about the general information about the respondent and the second section is to inquire respondent perceptions about the CSR items and its impact on the dependent variables. This study was based on employees experience and their exp

... arily until most currencies were sold and the entire market got into a slump. # However, after reaching its pinnacle in January 2018, the market crashed and has since been winding. In Telesivory's earlier blog, Blockchain, an emerging concept, a disruptive technology, we tried to explain the evolution of cryptocurrency and its technical know-how. In this blog, Telesivory attempted to understand the volatility in its prices. Over the last 24 hours, Ether , the currency for the Ethereum network, went from ₹1,09,964 to ₹1,11,465, with a market cap of ₹13.7T. # So far, professional investors say they would actually welcome new regulations -- as long as they are not too stringent. But Gensler has called on Congress to give regulators the authority to write new rules. "In the absence of, you know, definitive regulation that applies to crypto assets, we work with them to craft policies, procedures, and processes," she says. # One of the oldest cryptocurrencies had forked from Bitcoin in 2017. By major market parameters, Bitcoin Cash has al

... ise division between the first and second tier economies is somewhat discretionary, but in general, the First Tier Markets are fully compliant with both the Accord on Trade and the Common Economic Protocol, and have a higher per-capita income than the Second Tier Markets. # The Emerging Markets are late industrial era or early information era scarce economies, in which material goods retain high production costs, but where nonetheless the information and service economy is a significant factor and early agalamic features may be present. # The Unmerged are those economies prior to the late industrial era, often non-agricultural in operation, in which the primary activities are the production of material goods and resource extraction. (These overlap heavily with the Forgotten Worlds.) Since their main potential value is found in material production, raw resources, and inexpensive labor, all of which are obtainable in more developed economies through cornucopia technology and roboticization at less expense, they have little to offer the Core

... to form teams and identify the best talent for projects across the organization. One thing the company has found is that like-minded workers gravitate towards each other, aided by technology, sparking bubbles of innovation. # Just as important, AI has helped Cisco make breakthroughs in hiring and talent development. "Now we are doing what we call 'blind hiring', where we don't see the name or the university the candidate attended. It's helped eliminate bias and let's us just review the purity of a person's work. This has opened up a whole new pool of talent we can tap -- individuals who may not have a college degree but are skilled at coding and a host of other expertise." # It's a whole new dynamic. "By 2025 I envision we will have a hybrid model and we will be more deliberate in who comes to the office and for what purpose. That may include engineers working in our labs, customer visits that would bring us into the office or innovation days to bring in project teams. That's because we've found we can do so much remotely, including Web

... st-earning, they would have a market value - the present value of the capital inflows (interest received) - which can be capped at 50 years, etcetera, or issued as interest-paying in perpetuity. Here again, an argument may arise regarding the viability of the repayment of these inflows, which may be considered as debt. # However, classifying these inflows as debt wouldn't be accurate. This money collected from individuals and businesses would, in conjunction with the primary amount of the fund, be injected into the economy and the economic agents that receive payments from the SWF, or the equity that the SWF buys would be assets held by the SWF, a portion of which would be used to pay the businesses and individuals that provide the inflows to the SWF. Therefore, the inflows for the providers of inflows should be considered as equity they hold, with the SWF acting as an intermediary. # The SWF would issue debt and acquire equity based on the inflows it receives, those that provide the inflows, if we bypass the middle entity the SWF
