... published a book also called the Skeptics Guide to the Universe. ''S:'' It's a bit of a tome. ''S:'' I believe it's 137,000 words. ''S:'' It's essentially our guide to all things skeptically related, all the stuff we talk about on the show, science versus pseudoscience, logical fallacies, different specific pseudosciences, cognitive biases. ''B:'' There's a rumor that the book is just a transcript of every episode we've ever done. ''B:'' Is that true? ''S:'' That's fake news. ''S:'' That's a false rumor. ''B:'' Ah, okay. ''S:'' Now, there's a lot of information in this book that you will never have heard listening to the show. ''S:'' And it is obviously all organized and in one place. ''S:'' And if you ever think, oh, I wish there was one place where I can go and like study all the logical fallacies that keep talking up. ''S:'' This is what that book is for. ''S:'' And also, I understand it's a wonderful gift. ''S:'' And with Christmas coming in, oh, I get to speak about that again. ''S:'' Oh, it's that t

... pseudonym Alicia Chudo, noted the sense of moral urgency that Russian literature conveys, and spoke of literary characters as possible people, a formulation I like very much. Best of all, he read aloud, from translations: when I was a student, undergrad and grad, I didn't understand why he read aloud to us, but have come to realize in recent years how much his readings helped me learn to hear the shadings of literary voices. # I would be remiss if I didn't mention that Alex Cigale gave me a copy of the spring/summer 2015 issue of Atlanta Review: Alex edited the issue and it includes four or five or six dozen translations of Russian poems. Alex pulled together a fantastic roster of fifty poets (Shamshad Abdullaev to Ivan Zhdanov, if taken in the Roman alphabet's A to Z) and several dozen translators, many of whom I know and have heard read from and/or speak about their work. I've only read a small sliver of the issue-every time I open the journal, I get happily stuck on Alyssa Dinenga Gillespie's lush translation of a Polina Barskova

... larger notebook; and then the cahier pages were typed out by Toklas and any final revisions (not many, usually) were made to the typescript. "Hundreds of carnets must have been filled," she says, and the "scribbled notes tell what she did, what she saw, what she thought, where she went, and how she worked, all interlocked in the service of composition. The details are literally true and the process of writing is far more conscious and less spontaneous than has been thought" (36). The cahiers reveal that Stein often used them as a painter would a canvas: "Many manuscript notebooks are filled to the last line of the last page of the last cahier of any one work. [...] Stein let space determine composition" (41). # Throughout her book Dydo turns to the carnets and cahiers to read the "referential details [that] make it possible to follow, in a raw state, what was happening to Stein, what she did and what she thought" (83). And with her background as an editor of Stein, she has added footnotes after footnotes to thicken our sense of Stein's l

... (S). The Protagonist (AJ) is likeable enough character. His interactions with other characters in the story is good. The one part that's hard to swallow is that he's an expert sniper and no one else can do what he does. Yes, I know the story has reasons for why he's a bad-ass. But most of the other spec. ops characters in the story somehow can't hold a candle to him (even though he's just a kid). I find it hard to believe. # This series sort of strikes me as a young adult novel than it does an adult book. Short on justification for why some things are the way they are or perhaps a simplified version. With a young hero that most of the adults are fawning over to hear his wisdom or praise his amazing abilities. If you can get past those things, then you'll certainly enjoy the books and their storylines. # Rockbreaker # Where is the next book? # Don't start this on a weeknight or you will be going to work tired. Hard to stop listening. Very good story! # M. Lenley Wright # Entertaining new series. # I really enjoyed the story. The situ

... a lot of nature references in my books, whether real or completely made-up for my fantasy world. I like to mesh reality and make-believe. The natural world fascinates me and has always been my inspiration. So, there's bound to be some science-related themes in every book I write, whether it's weather and geography, human physiology, or microbiology. It's a running theme. # delved into self-publishing was because of the positive feedback I received from agents on my manuscript. When agents compliment your world-building, your writing, and the story, and tell you to touch base with them for future projects? It's eye-opening in a way that a friend's "This is great!" isn't. (Not that my friends aren't positively amazing and cherished for their encouragement. They are. But when an agent compliments your writing? It's a Big Deal.) That encouragement gave me the courage to take the leap. # Cliché as it sounds? From everywhere. But a lot of it comes from nature and the natural world since I'm a scientist at heart. # My very first book
