

# Fallacies behind the XAI crisis

models are either interpretable or not  
(single) XAI silver bullet exists  
true explanations exists  
user study is the ultimate validation  
only users need explanations

*solved after sorting out*

## Two XAI Cultures

*validation-oriented*

**R**esearch

**E**xplore

**D**ebug

*value-oriented*

responsi**B**le

**L**egal

tr**U**st

**E**thics

*new research perspectives*

## So what? New Challenges

supplementary and complementary explanations  
multiple models (Rashomon perspective)  
explorer mindset for data and models  
benchmarks, tools, standards  
XAI for Science
