

Incorrect Steps

Instruction :

On Mondays, Wednesdays, and Fridays, college student Kimo has three 1-hour classes each day. On Tuesdays and Thursdays, he has two 2-hour classes each day. In one semester, there are 16 weeks of school. In one semester, how many hours does Kimo spend attending classes? Let's write a program.

Response:

```
# define the number of classes per week and
weeks in a semester
```

```
classes_per_week = 3*3 + 2*2
```

```
weeks_in_semester = 16
```

```
# calculate total classes in a semester
```

```
total_classes = classes_per_week *
```

```
weeks_in_semester\
```

```
# print the result
```

```
print(total_classes)
```

Prediction: 208

Answer: 272

Missing Steps

Instruction :

Katarina has 5 less cookies than Max has. **Max has 12 more cookies than the Cookie Monster**, and Summer has 23 more cookies than Max. If Katarina has 68 cookies, how many cookies do they have in total? Let's write a program.

Response:

```
# define the number of cookies each person
has
```

```
katarina_cookies = 68
```

```
max_cookies = katarina_cookies + 5
```

```
monster_cookies = max_cookies - 12
```

```
summer_cookies = max_cookies + 23
```

```
# calculate the total number of cookies
```

```
total_cookies = katarina_cookies +
```

```
max_cookies + summer_cookies +
```

```
monster_cookies
```

```
print(total_cookies)
```

Prediction: 237

Answer: 298

Redundant Steps

Instruction :

Becky, Jake, and Silvia shared 4 pizzas. Each pizza had 8 slices. Becky ate 3 more slices than Jake did. Silvia ate twice as many slices than Jake did. If Becky ate 10 slices, how many total slices did they eat? Let's write a program

Response:

```
total_pizzas = 4
```

```
slices_per_pizza = 8
```

```
becky_slices = 10
```

```
jake_slices = becky_slices - 3
```

```
silvia_slices = jake_slices * 2
```

```
total_slices = total_pizzas *
```

```
slices_per_pizza
```

```
total_eaten = becky_slices + jake_slices +
```

```
silvia_slices
```

```
remaining_slices = total_slices -
```

```
total_eaten
```

```
print(remaining_slices)
```
