

stage-1: 2D detector training

2D detector

*prompt*

2D detection

stage-2: 3D detector training

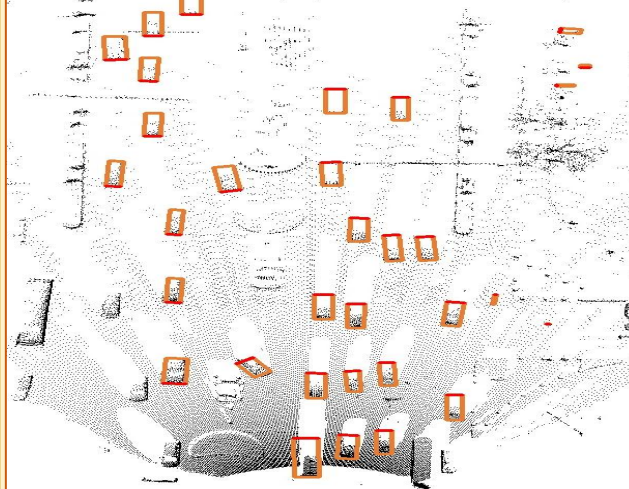

3D detector:  
encoder

fusion  
module

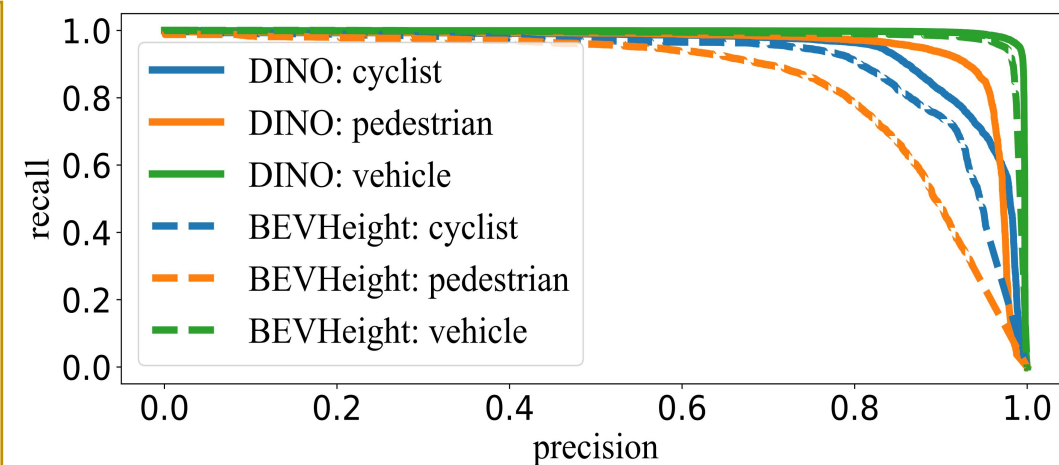

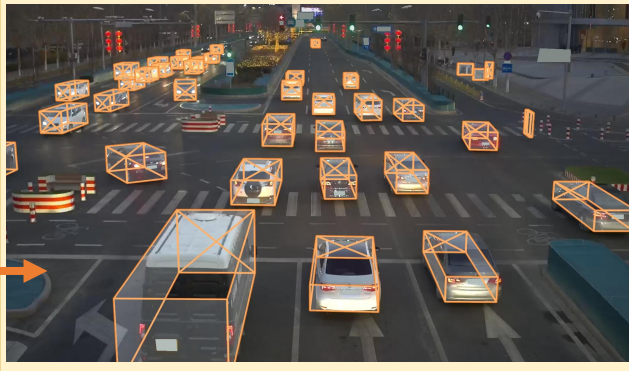

prompt  
encoder

3D detector:  
decoder

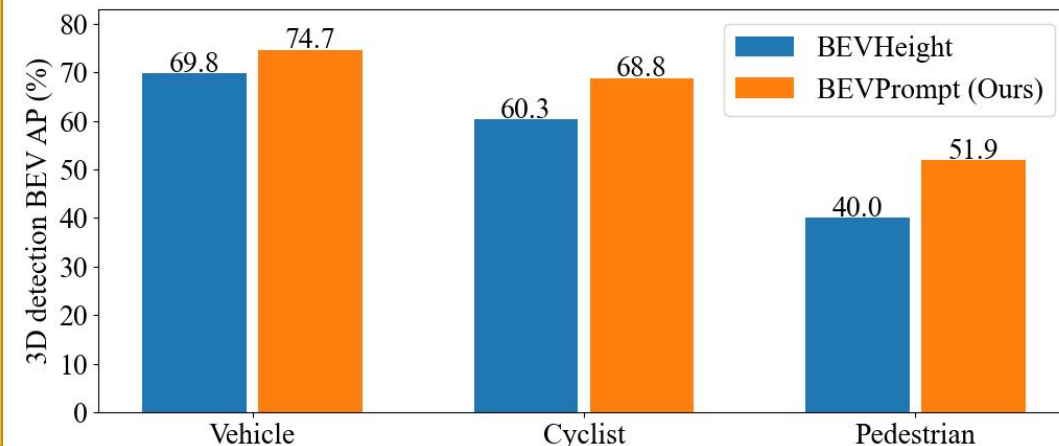

3D detection shown in BEV

3D detection shown in RGB

(b) 2D detector vs. 3D detector

(c) BEVHeight vs. our BEVPrompt

(a) Overview of our approach BEVPrompt to roadside monocular 3D detection
