

Please reply with a Python 3 solution to the below problem. Make sure to wrap your code in '```python' and '```' Markdown delimiters, and include exactly one block of code with the entire solution (in the final code step).

Reason through the problem and think step by step. Specifically:

1. Restate the problem in plain English
2. Conceptualize a solution first in plain English
3. Write a pseudocode solution
4. Output the final Python solution with your solution steps in comments.

No outside libraries are allowed.
