

$P =$  Probability density of entropy  $S$

$$N = 6, \quad j = 1, \quad m = +1$$

$$N_A = 3$$

$$\blacksquare S_{GA}(|\psi\rangle)$$

$$\blacksquare S_{KA}(|\psi\rangle)$$

$$\langle S_{GA} \rangle = \frac{743}{840} \simeq 0.885$$

$$\Delta S_{GA} = \sqrt{\frac{1888687}{2116800} - \frac{4\pi^2}{45}} \simeq 0.122$$

$$\mu_{GA} \simeq 0.885$$

$$\sigma_{GA} \simeq 0.122$$

$$P(S_{GA})$$

$$\mu_{GA} \pm \sigma_{GA}$$

$$\mu_{KA} \pm \sigma_{KA}$$
