# (c) Object State Label Inference

[0s-2.0s] hello everybody  
...  
[17.8s-19.9s] so what we're only going to do is pick the biggest ones  
...  
[30.0s-35.0s] what we're looking for is the larger apples  
...  
[281.5s-266.3s] now we'll cut these places out when we start getting ready to cool them up and use them  
...  
[499.6.7s-514.6s] we're going to bowl for 20 minutes in the water bath canner and take them out and our apple slices will be done  
...  
[696.6s-703.9s] so you can see we have plenty of canned apples now to make it through the winter months with thank you from deep south homestead

LLM

- Picking the biggest apples
- Sorting the apples
- ...
- Scoring apples and cutting them into eight pieces
- ...
- Boiling apple slices in water bath canner
- ...
- ...
