Consent for Participation

We would like to invite you to participate in a web-based online experiment. This experiment is part of a research project whose purpose is to design better methods for aggregating information by understanding how people respond to different types of questions. In the experiment, you may be asked to answer questions related to movies, geography, and paintings.

Benefits and Risks: You can earn upto \$1 from participating in this experiment. You will be compensated with \$0.5 as a base payment which you will receive as soon as you successfully complete the experiment. Furthermore, you can win a bonus payment of up to \$0.5, depending on your responses to different questions. A single experimental session should take about 10-15 minutes. We do not anticipate any risks from participating in this experiment. There is no direct benefit, except the payment, of participating in this experiment.

Privacy and Confidentiality: Your decisions and choices will be kept confidential and stored in private. Identifiable information like your MTurk ID will never be used or shared. In the future, we might use the information you provide for scientific publications, and share our findings with other researchers. However, we will remove any identifiable information from the dataset when presenting our findings and sharing the dataset. We will not use or share the data in any other way.

Withdrawal: Participation in this experiment is voluntary. You can withdraw your participation at any time by ceasing to answer questions and closing your browser. However, you will need to complete the experiment to receive the base payment.

Contact: If you have any questions or concerns about this research study, please contact the researchers for this study at avp6267@psu.edu. Additionally, If you have questions regarding your rights as a research subject or concerns regarding your privacy, you may contact the Human Research Protection Program at (814-865-1775).

You can save or print a copy of this screen for your records. [Print](#)
