

1

## Task Description

You need to provide diverse task prompts related to Traditional Chinese Medicine(TCM) and generate questions. The requirements are as follows: (你需要尽可能给出多样化的, 与中医(中国传统医学)相关的任务指令并生成问题。要求:)

2

## Knowledge Fusion

1. Generate questions based on the following symptom set: urinary retention and abdominal pain. **[Randomly choose a symptom set from the Dictionary of TCM Formulas dataset.]** (1. 根据如下症状组合进行问题生成: 小便不通、腹痛。[在《中医方剂大辞典》的数据集中任意选择一个症状集合。])
2. Diverse descriptions incorporate real-world clinical tasks with various question types, such as TCM knowledge reasoning, herb recommendations, TCM diagnosis, prescription recommendations, evaluation of prescriptions, treatment recommendations, and interpretation of TCM prescriptions. (2. 描述多样化, 结合真实问题, 问题类型多样化, 例如: 中医知识推理、中药推荐、中医诊断、方剂推荐、方剂点评、治疗推荐、中医方剂解读等。)

3

## Q&A Constraints

Please provide five strict output format questions that meet the conditions without any other content output.(请给出满足条件的5个严格满足输出格式的问题, 不要有其他内容的输出: )

Here is an example of the output format: (以下是输出格式的示例: )

### Output Format (Sample)

"query": "How does TCM practitioner diagnose a condition based on symptoms?" ("query": "根据症状, 中医如何诊断病情? ")

### Output Format (Recommendation)

"query": "What herbs can help treat my cold and cough? The response requirements are as follows: 1. Please consider all symptoms. 2. Please output the reasoning process, which may involve symptoms, syndromes, therapeutic methods, and information on prescriptions or herbs." ("query": "我感冒咳嗽, 有什么中药可以帮助治疗? 要求: 1. 请考虑所有症状。2. 请输出推理过程, 推理过程可能涉及症状、证候、治法、方剂和中药等信息。")
