TCM

The **Philosophical Thought** of Ancient China

Four Ways of Diagnosis:
Look, Listen, Question, and Feel the Pulse

Utilizing **Herbs, Acupuncture, and Massage**, etc.

Prevention Before Illness and **Regimen**

Unity of Mind and Body, Emphasizing **Emotional Factors**

Western
Medicine

Empirical **Science and Principles of Biology**

Laboratory Examination and Imaging Examination

Utilizing **Drugs, Surgery, and Radiation Therapy**, etc.

Eliminating Pathogens and **Restoring Organ Function**

Less Consideration of Emotional Factors, Emphasizing **Physiological Changes**
