

```
public String readString() {  
    int c = read();  
    while (isSpaceChar(c))  
        c = read();  
    StringBuilder res = new StringBuilder();  
    do {  
        ...  
    } while (c != -1 && !isSpaceChar(c));  
    return res.toString();  
}
```
