

Long Narrative Text	As I stand beside the serene gurgling stream, the gentle melody of its waters is suddenly disrupted by a loud, jarring thump. The sound waves ripple through the air, shattering the peaceful atmosphere. The gurgling stream, once a soothing background hum, now seems to falter, as if taken aback by the unexpected interruption. The thump's reverberations echo through the forest, causing leaves to rustle and birds to take flight. The sudden jolt of sound creates a sense of unease, as if the natural world has been momentarily jarred out of its tranquility. The stream's gentle gurgling returns, but the memory of the thump lingers, a reminder of the fleeting nature of serenity
Categorization Prompt	<p>I have listed some categories of environmental sounds. I will give you a descriptive text, and you need to identify the sounds present in it and classify them into both major and subcategories. A single text may contain multiple sounds, and you need to consider all the categories. The categories are as follows:</p> <p>Natural Environmental Sounds (Weather sounds, Water sounds, Animal sounds);</p> <p>Urban Environmental Sounds (Traffic sounds, Crowd sounds, Construction sounds);</p> <p>Indoor Environmental Sounds (Household appliance sounds, Office environment sounds, Daily household sounds);</p> <p>Industrial Environmental Sounds (Factory machine sounds, Tool usage sounds);</p>
Result	<p>Based on the provided text, the environmental sounds present are:</p> <p>\n\n1. Natural Environmental Sounds:\n\t* Weather sounds: None\n\t* Water sounds: Gurgling stream\n\t* Animal sounds: Birds chirping or taking flight</p> <p>\n2. Urban Environmental Sounds: None</p> <p>\n3. Indoor Environmental Sounds: None</p> <p>\n4. Industrial Environmental Sounds: None</p> <p>The thump is the primary sound that disrupts the peaceful atmosphere, and its reverberations cause the leaves to rustle and birds to take flight. The gurgling stream is the background hum that is initially soothing but is disrupted by the thump. The text does not contain any urban, indoor, or industrial sounds."</p>
