

An Example of Diversity Node Template

Considering a user: {User info}

Here's a list of the candidate movies: {Candidate List}

Your reranking goal: {Goal}

Your historical reranking: {Historical Reranking Pool}

Now, you need to focus on the diversity aspect (more items with different xx features should exist at the top of the reranking list) and rerank the candidates based on the given information, and then give suggestions about the next step of reranking from the following reranking nodes considering the goal: {Available Nodes}

For your response format: {Format Description}
