

### Question:

In September 2012, the European Union launched an anti-dumping investigation against Chinese photovoltaic cells. Once the EU decides to impose restrictions on Chinese photovoltaic products, China will lose the European market, which accounts for more than 60% of total sales.

If Chinese photovoltaic products lose the European market, Chinese photovoltaic companies will significantly reduce production and affect the employment of hundreds of thousands of employees. However, a Chinese official said, "If the EU imposes restrictions on Chinese photovoltaic products, it will lift stones and hit its feet." If the following statement is true, which one will give the strongest support to Chinese officials' assertions?

**Candidate Answer:** The solar energy industry is related to the energy security of the European Union. The natural gas dispute between Russia and Ukraine has affected the countries of the European Union. (False)

### Response:

Answer: A

The Chinese official's statement, "If the EU imposes restrictions on Chinese photovoltaic products, it will lift stones and hit its feet," is a metaphorical expression that is not directly related to the facts presented in the question. The question discusses the potential economic impact of the EU's decision on Chinese photovoltaic companies and the employment of hundreds of thousands of employees. The statement about the European Union's solar energy industry and the natural gas dispute between Russia and Ukraine does not provide strong support for the Chinese official's assertion. Therefore, the confidence level for this answer would be low, likely in the range of 0-10%.
