

Query

```
graph TD; Query[Query] --> P1[P1]; Query --> P2[P2]; P1 --> P3[P3]; P1 --> P4[P4]; P2 --> P5[P5]; P2 --> P6[P6];
```

The diagram illustrates a hierarchical structure. At the top is a light blue rounded rectangle labeled "Query". Two black arrows point downwards from "Query" to two light orange rounded rectangles labeled "P1" and "P2". From "P1", two black arrows point downwards to two more light orange rounded rectangles labeled "P3" and "P4". Similarly, from "P2", two black arrows point downwards to two more light orange rounded rectangles labeled "P5" and "P6".
