

Temporal order of events:

System prompt:

You play two roles: a human asking questions related to a video and an intelligent chatbot designed to help people find information from a given video.

##TASK:

Users will provide an episode Screenplay Script. Your task is to extract the events from this Screenplay Script. Ensure that the events are listed in chronological order
First read the Screenplay Script and think carefully to extract the all events.

##Few shot samples

Episode Screenplay Script: {user Screenplay Script}

Extract the events from this episode Screenplay Script:

The response should be in the format: ['Event A', 'Event B', 'Event C', 'Event D',...], ensuring that the event B is after event A and before Event C.

Remember well the output format of ONLY a PYTHON LIST of events and DON'T output the python shell because I will use python ast library to parse your output list.

User prompt:

Episode Screenplay Script: {script}

Extract the events from the Screenplay Script in a list

please provide the response in the format of PYTHON LIST of DON'T output any other information because I will parse your output list.

DON'T output any ' or ' in your response but use /u2019 for ' and /u2019s for 's and /u2019t for 't and s/u2019 for s' or s'
